

**DEGREE COMPLETION PLANS  
FOR NCI COUNSELING STUDENTS  
BEGINNING FALL SEMESTER, 2011**

In order to graduate six terms after beginning (two calendar years), full-time students must enter the program in fall semester of each year. Full-time students beginning in spring semester or summer term will be out of sequence and probably will take longer than six terms to graduate. Individual courses or independent study courses will not be offered for students who are out of sequence.

Part-time students generally will take from 9-12 terms to graduate, depending on whether they take one or two courses per term.
